

HOLIDAY RESPIRE GIVEN TO ALIENS

Immigrants Awaiting Deportation Allowed to Land for Ninety Days.

Secretary Davis yesterday ordered immigration officials to authorize landing for a period of ninety days of aliens now held at immigration stations in excess of quotas already admitted. Records of the Labor Department showed, Mr. Davis said, approximately 1,100 aliens at New York and fifty at Boston who had not been admitted heretofore and who were expected to be deported.

Nearly all the aliens who will benefit by the order are women and children coming here to join husbands and fathers; young children coming to brothers and sisters and elderly men and women who were to join their children here. The Secretary said that only a few industrial workers were in the lot and hence little competition with American labor was to be expected.

Order Follows Visit.
The orders were issued following a visit Mr. Davis made to Ellis Island. "It is hoped," said the Secretary in a statement, "that in the future steamship companies will refrain from bringing more aliens from countries the quota of which is exhausted, but if they continue to do so the department is determined that such aliens shall not be removed from the ships which brought them and under no conditions will aliens brought in excess of quotas be admitted to the United States, temporarily or otherwise."

LEAVING ELLIS ISLAND.

First 200 Depart Within Two Hours of Release Order.

By the Associated Press.
NEW YORK, December 24.—The gates of Ellis Island swung open late yesterday, freeing more than one thousand aliens, detained under the immigration quota law, so that they might spend Christmas with friends and relatives in the land of promise.

The order arrived shortly after 3 o'clock, and two hours later two hundred of the aliens had packed their belongings and left the island. Others departed after midnight, all of them would be released by tomorrow evening. Hungarians, Poles and Greeks outnumbered other races in the laughing, happy swarms that stried the necessary papers and ran with expectant gaiety toward the ferries that brought them to New York and to railway terminals on the Jersey shore. Many of the foreigners immediately boarded trains that would take them to loved ones in the west. Others landed at the Battery and scattered to the various foreign colonies in the polyglot metropolitan area.

The cheerful tidings from Washington came as an unexpected delight to the aliens because almost a frenzy. Many had been in downcast spirits at the prospect of being released in Christmas followed by deportation from the land to which they had come with high hopes.

Each was released on his or her own bond, all agreeing to make arrangements for passage back home at the end of the ninety-day stay on American soil.

WILL INTRODUCE BILL.

By the Associated Press.
YOUNGSTOWN, Ohio, December 24.—Representative Albert Johnson, republican, Washington, will introduce a resolution when the House reconvenes January 5 to make permanent the temporary ninety-day release granted yesterday to 1,100 aliens held at Ellis Island because quotas for their countries under the immigration law had been filled, according to a telegram from Mr. Johnson received here today by E. S. Nemeny, editor of a Hungarian language newspaper which has been active in urging release of the aliens.

HERE'S hoping
THAT today
FINDS you
ENJOYING the
BEST of health
AND happiness
BECAUSE it
SEEMS to me
THAT everybody
OUGHT to be
HAPPY today
AND SO it
GIVES me the
GREATEST of
PLEASURE in
WISHING to
ALL my friends
AND patrons a
MERRY XMAS

"Miracle Men" Jailed For Hoax Practiced On Church Members

VORONEZH, Russia, December 24.—Six "miracle men" have come to grief in this province and are now serving six months at hard labor. The men, all priests of the Russian orthodox church, were convicted of defrauding parishioners by having old icons renovated and representing that they were renewed by miracle, and consequently possessed divine powers.

The priests were tried at a sensational hearing in the opera house, which lasted more than a week. Archbishop Tikon was one of the witnesses, and declared that icons could not be renewed by miracle. Theologians, ecologists and alienists also testified.

It was the practice of priests in Russia to rent out icons which are supposed to have special powers. These are frequently carried into sick rooms, to funerals, weddings and christenings.

HEALTH RADIO SERVICE OPENED BY GOVERNMENT

Surgeon General Cummings Sends Message in First Enterprise of Kind in World.

The United States public health radio information service, announced in preliminary broadcasts December 16 and 17, was inaugurated last night when Surgeon General Cummings, speaking from his desk in building C into an ordinary telephone line, sent out the "helpful health hints" the United States public health service is to send out by radiotelephone twice each week.

The message sent by the surgeon general, the first of its kind in the world, wished all Americans good health and happiness in the new year and characterized the radio telephone as the latest present from Santa Claus.

The surgeon general's message was sent from the naval radio station at Anacostia, and, it was said, was picked up by virtually all operators east of the Mississippi river.

The Chesapeake and Potomac Telephone Company made it possible for the surgeon general to speak from his office by constructing a private line to the radio station, where the health talk was transmitted.

The health messages will be given out twice each week—Tuesday, at 4:15 p.m., Washington time, on 1,300 meters wave length, and on Friday, at 9 p.m., Washington time, at a wave length of 350 meters, it was announced.

The Tuesday schedule should have a consistent range of 250 to 300 miles, and the Friday schedule a range of 400 to 1,500 miles, according to atmospheric conditions.

Operators wishing to ask questions regarding the messages are requested by the health service to write to the surgeon general.

Dr. C. C. Pierce, assistant surgeon general, and Louis K. Heath, radio expert of the public health service, will have charge of further sending of the bulletins and will see that the messages are given out at the time designated.

SCIENCE TO TURN LIGHT ON PERU'S STRONG MEN

LONDON, December 11.—Many of the natives of Peru, it is stated, are much less affected by the rarefied air at high altitudes than are ordinary men of other races who are accustomed to hard labor. It is declared that at an altitude of 16,000 feet they can carry loads of 150 pounds up a steep incline where the ordinary man would find it all he could do to drag his own boots up.

The Royal Society is going to try to find out the secret that enables them to perform such feats of physical strength under conditions that would render the task an impossible one for the average man. Three scientists have just gone to Peru to investigate the phenomenon. They are Prof. Meakin, J. I. Barcroft and J. H. Duggart, the last two of Cambridge University.

Five other scientists from Canada and New York will join them in Peru. Mr. Barcroft told an interviewer that the purpose of the expedition is to test the strain to which the heart and lungs are subjected by carrying heavy loads at such great height and to endeavor to discover how the natives can stand it.

PRESIDENTIAL "PALACE" IN RUSSIA AND THE "FIRST LADY" OF THAT LAND.

The country home at Troitsa of Michael Kalenin, president of the republic of soviet Russia. Kalenin, before the revolution, was a farmer and country school teacher.

PROVERBS IN CHRISTMAS GREETING ISSUED BY THE ATTORNEY GENERAL

Several wholesome proverbs, "stated for the consideration of all who may read, regardless of their station in life," were contained in a Christmas greeting to the public from Attorney General Daugherty last night. Seven of them follow:

"If a man does the right thing he will have the help and approval of those who know him, and if he does not do the right thing he doesn't deserve it."

"The world never turns against a man until he has turned against the world, and it is never too late to wake up."

"A man owes society, his country and the world more than he owes him and more than he can ever pay."

"If one has self-respect he will not go far wrong."

"If one respects others he will do them no injury, either in person or property."

"In this country one man has the same freedom and the same rights as another."

"Every man owes the same degree of loyalty to his country and the same obligation to society."

"To all mankind," Mr. Daugherty concluded, "I wish a happy, beautiful and hopeful Christmas time. Let us hold up our heads and be of good cheer. Let us love God and be grateful. Let us obey the laws of our country and let us obey the Ten Commandments."

Mr. Daugherty in his statement said had been offered since he assumed office to last him until the end of his term, "whether it be long or short." The majority of the counsel proffered, he added, "was of such a character that the person offering it would not himself do as he advises me to do if he were in my position."

AUTOMOTIVE ENGINEERS PLANNING STANDARD NAMES FOR BODY TYPES

By the Associated Press.
NEW YORK, December 24.—Drafts of a tentative recommendation for "stable and scientific" nomenclature for automobile body types will be submitted to the Society of Automotive Engineers at its next meeting here January 10.

Standardization of the "thousand and one" names coined for new models of cars in the last decade was necessary to the sanity of the trade, the society declared some time ago, and it appointed a committee to decide upon a suitable nomenclature.

The committee's recommendation will include fourteen names, with another to be decided upon later. The fourteen will be descriptive of all standard types and will eliminate such names as "torpedo," "baby landaulet," "baby this and baby that." The proposed fourteen are:

Roadster, coupe, phaeton, sedan, berline, limousine, brougham, landaulet, cabriolet, sedan-landaulet, berline-landaulet, coupe-landaulet, limousine-landaulet and brougham-landaulet. The fifteenth name will be descriptive of enclosed, single-compartment bodied cars with two fixed cross seats, close-coupled and allowing the minimum fore-and-aft seating space for four passengers.

CONFERR ON SCHOOLS.

Estimating Actual Cost Required to Complete Dams.

Two conferences, for the purpose of coming to an agreement on the actual cost required to complete dams 1 and 2 at the nitrate and water-power projects at Muscle Shoals, Alabama, which Henry Ford has offered to lease and purchase, were held at the War Department yesterday afternoon between Secretary Weeks and engineers of the Army and those representing Mr. Ford.

Maj. Gen. Beach and Brig. Gen. Taylor, chief and assistant chief of Army engineers, have estimated the cost of completing the dams at between \$45,000,000 and \$55,000,000, while Mr. Ford's engineers, J. W. Worthington and W. E. Mayo, have placed the amount necessary to continue construction at \$30,000,000. After the meeting Secretary Weeks announced that no agreement had been reached, and that he would continue on his letter to Mr. Ford, in which he would ask the Detroit manufacturer for additional information respecting the construction of the two dams.

FRUIT FOR MR. HARDING.

NEW YORK, December 23.—Breaking previous records for the run between Rio de Janeiro and New York, the steamship American Legion arrived today with a basket of Argentine cherries for President Harding's Christmas dinner. They were a part of the first consignment of Argentine cherries received here.

The American Legion's elapsed time, from port to port, was 10 days 21 hours and 51 minutes—several hours less than the normal running time.

COO COO PRESENTED AT TECH GRADS' REUNION

Original Musical Comedy Has Many Bright Features—Christmas Gathering Is Success.

"Coo Coo," an original musical comedy, was presented by former Tech High School dramatic stars at the annual Christmas reunion of the Alumni Association of the institution last night in the school auditorium. It was replete with tuneful music and had a chorus of pretty girls, who could sing and dance.

"Coo Coo," like most musical comedies, had a semblance of a plot, but it served only to give the chorus a brief respite from the footlights. The success of the show, however, was not due entirely to the comely girls of the chorus, but to two of the best comedians ever produced by the Tech Dramatic Association—Luke and Steve Fagan. The Fagan brothers were the highlights of the score, and provoked almost continuous laughter with their repertoire of humorous songs and ludicrous remarks.

The vague plot of the show was woven around the experiences of a theatrical company, which became stranded on a tropical island while en route from New York to Paris in a transatlantic passenger airship. The production was in three acts and an equal number of scenes.

Several special features introduced throughout the production, among which were oriental dances under the direction of Miss Alva Robinson, and a concert by the Anchor Club Stringed Orchestra. The scenery for the show, painted by C. A. Smith, a graduate of Tech, was a work of art. Miles F. Connors was technical director and Joseph L. White stage director.

Important roles in "Coo Coo" were taken by Mary Langley, Madeline Beaulac, Frances H. Hart, Harry Marlowe, Royal Foster, Earl Kitchner, John A. Patterson and Emil Frost. Others in the cast were: Edith Bontz, Marie Ethridge, Marian Lynch, Anna O'Connor, Mary O'Connor, Ethel Williams, Alva Robinson, Thelma A. Schmitt, Etelka M. Kearney, Margaret Prentiss, Helen Noyes, Helen Holmes, Alberta M. Ayres, Anna Hawkins, Ellen McClintock, A. K. Martin, John A. Patterson, William Press and Thomas Inlay.

More than 1,000 alumni of Tech attended the reunion. Classes from 1906 to 1921 were represented. Norman H. Barnes, president of the alumni association, presided at a brief business meeting, which preceded the show.

GAS CAUSES DEATH.

Mrs. Laura Naeff, sixty-eight years old, was accidentally asphyxiated while in bed in her home yesterday morning. She was dead when her daughter, Miss Ellen Naeff, went to her room to learn something about the cause of the gas. A coroner's jury gave a certificate of accidental death.

"WILL BE WITH FRIENDS."

NEW YORK, December 24.—Miss Anne Sullivan, arriving on the steamer Adriatic for a short vacation from the private school she is attending in Paris, said she would not spend Christmas with either her father, James A. Sullivan, or her mother, who are involved in divorce proceedings. "I shall be with friends," she said.

THREE YEARS FOR FORGERY.

Chief Justice McCoy in Criminal Division yesterday sentenced J. B. Williams to serve three years in the penitentiary for forging a check for \$2,100. Robert Washington was given two years for an assault with a dangerous weapon on Newton Williams September 2.
